

**REMARKS/ARGUMENTS**

Reconsideration of this application is requested. Claims 1, 3-5 and 8-11 will be active in the application subsequent to entry of this Amendment.

New claim 11 directed to the elected species has been added.

The Official Action restates a requirement for restriction with a request for an election of species. The only part of the response of September 6, 2007 was the designation of Example 21. The correct compound number is ST2501.

Applicants select Group 4, that is claims 1-7 (in part) drawn to the compounds not falling within Groups 1, 2 or 3 as specified in the Official Action. The single disclosed species is the compound of Example 21, that is ST2501. New independent claim 11 has been added directed to this compound.

An examination on the merits is awaited taking into account the documents cited in the International Search Report which have been listed on the relevant form with the original application papers.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
